

CyberShield

**YOUR ALL-IN-ONE CYBER SECURITY SOLUTION
FOR ULTIMATE BUSINESS PROTECTION**

Ensure a holistic approach to safeguarding your organisation's digital assets with CyberShield by ADITS. This cost-effective, seamless and proactive solution is built around managed IT, essential security controls outlined by the SMB1001 :2023 Silver Tier 2 and IT governance.

Your Essential Business Toolkit for a **Stronger & Secure** Tomorrow

24/7 MONITORING & MAINTENANCE

Ensure your servers, networks, and other IT infrastructure are performing at their best.

UNLIMITED IT SUPPORT

Comprehensive IT expertise is always at hand via phone, email, remote or onsite.

REGULAR UPGRADES

Keep your software and hardware updated and secure.

RELIABLE BACKUP & RECOVERY

Protect your business against data loss and ensure minimal downtime.

ACCESS MANAGEMENT

Ensure tight data governance and control over who has access to your data.

SECURE PASSWORD MANAGEMENT

Encrypt, store and manage all your passwords in one place.

CLEAR POLICIES, PROCESSES & PLANS

Establish a framework for effective IT governance, security, and operational efficiency.

ROBUST CYBER SECURITY MEASURES

Increase your cyber resilience with IT Security aligned with the SMB1001:2023 Silver Tier 2 Framework.

Compliance vs. Security

TWO SIDES OF THE SAME COIN

Data has become an invaluable resource, and you have an obligation to use it ethically and protect it from threats.

CyberShield focuses heavily on Data Privacy and Compliance, where people skills, internal processes and technology are the perfect combination.

Go the extra mile to comply with the Privacy Act – the mandatory Australian privacy law required by all organisations handling personal information – and benefit from the only assessment tool for the Privacy Act in Australia with CyberShield+.

SMB1001 Certified

At ADITS we follow the Cyber Security Certification Australia (CSCAU) standard, SMB1001. It offers greater coverage across all the key practice areas that support a robust security program achievable and cost-effective for small-to-medium sized businesses.

Start by Understanding your Human Risk Areas

Managing your cyber security begins with knowing the risks you face. ADITS offers a **FREE Human Risk Report** to identify high risk areas and provide actionable steps to resolve and strengthen your business.
